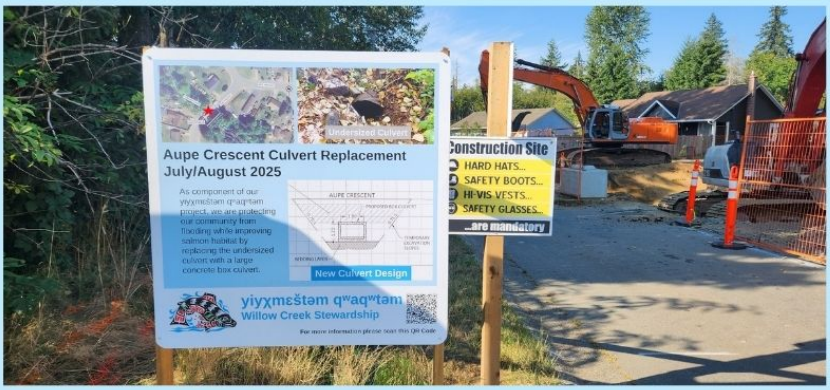
Aupe Crescent Culvert Replacement - Updates

Over the past two weeks, the Aupe Crescent culvert replacement work has been underway, and the installation of the new concrete box culvert has begun! This work will help protect nearby homes from flooding. Here are photos from last week's activities.



"This is great. I remember the last time it flooded, it was running down the road by where my place is now."
- Preston Joseph

The work will continue over the coming weeks. Please note the following upcoming activities scheduled:

Week 3

- **Monday September 1** - Culvert and earthworks installation continues.
- **Wednesday September 3** - Backfill and channel work begins.

Week 4

- **Monday September 8** - Roadworks and re-paving begins.
- **Thursday September 11** - Demobilization and closeout of work begins.

All work is currently expected to be complete by **Monday September 15.** We will inform the community if delays come up.
