Aupe Crescent Culvert Replacement - Updates

Over the past month, the Aupe Crescent culvert replacement work has been underway. Check out the progress from the past two week's activities. The culvert and earth materials have been installed on one side. The same work on the opposite side of the road is now underway! Soon after will begin the backfill work, channel work, and then the roadwork and repaving.

The project is currently running a bit behind schedule, and we thank you in advance for your patience as we complete this important work for the community and for Willow Creek!

Left and below: Completed culvert on one side of the road

Left: The same work on the other side of Aupe Crescent has also begun.
