Aupe Crescent Culvert Replacement - Updates

The Aupe Crescent Culvert is nearly finished! The majority of the work is complete, and the next steps include restoration work upstream and downstream of the culvert.

If you haven't driven or strolled past it yet to check it out, here are some photos of the new culvert - inside and out! This will be able to handle high stream flows much easier than the previous small culvert, and will help prevent flooding of nearby homes.

Thank you to the residents living on Aupe Crescent for your patience and understanding as we complete this important project!
